

Internal Market Committee

3 June 2021 / 2020-2021 Committee Reports

Jaap De Koning

Results 2020 - 2021

- Overview of Covid-19 related situations in the member countries (national policies, association initiatives, impact on the industry);
- Webinar on the use of MEAT;
- Translation of the Dutch model DG 2020 on Bouwteam (ECI) in English;
- An overview of the application of procurement rules below the thresholds in the member countries (consulting engineering services);
- Monitoring several issues related to contracting & procurement.

Objectives 2020 - 2021

- Continue promoting the use of our MEAT Guidance;
- Start advising on the use of the Finnish method (price/quality assessment tool) for the application of MEAT;
- Develop guidance on when to apply ECI / collaborative contracting;
- Examine the application of NEC-4 contracts;
- Monitor a possible review of the procurement Directives;
- Keep in close contact with the European Green Deal Committee.

Discussion

1. How do we act in case of Early Contractor Involvement?
2. Do we need to work on the promotion of NEC-4 contracts?
3. How do we add value on Circular Contracting in the design phase in case of ECI?
4. By which means can we influence forthcoming EC regulatory initiatives regarding public procurement (e.g. green criteria, LCA)?
5. How to use the benefits of digitalisation in promoting our messages (e.g. for the use of MEAT)?
